Connecting Research with Ethics

## COMPLIANCE MONITORING (CM)

### OBJECTIVES

To ensure:

1. the **safety and well-being** of research participants;
2. that research involving human subjects are being conducted, recorded, and reported in accordance with **IRB-approved protocols**; and
3. **research standards** are maintained across NTU.

### AM I ELIGIBLE FOR CM?

- The CM programme applies to all '**Expedited**' and '**Full Board**' research projects approved by NTU-IRB and conducted at NTU, including HBRA studies.
- Studies are selected for CM based on **risk level** and to cover the various research disciplines in NTU.

Please refer to our [Compliance Monitoring guidelines page](#) for more information.

### TIPS FOR STUDY TEAMS

- Always be prepared for CM.
- Ensure all team members possess the required **trainings** throughout the study.
- Incorporate the use of **logs and trackers** found in our [Forms](#) page.
- Ensure adherence to the IRB approved protocol and use only IRB approved materials.
- Ensure all **consent forms** are appropriately filled and a signed copy is given to the research participants.
- Ensure that all participants recruited have met the **eligibility criteria** and document the screening process.
- Ensure that personal data is properly handled and secured with proper access control and protection.
