

Er. Chuck Kho Chza Main

School of Civil and Structural Engineering

B.Eng (Civil & Structural Engineering) / Class of 1995

In recognition of his contributions in civil, structural, geotechnical and transportation engineering in Singapore and overseas, the School of Civil and Environmental Engineering (CEE), Nanyang Technological University, is proud to present Er. Chuck Kho Chza Main with the CEE Outstanding Alumni Award.

Er. Kho is a senior leader with CPG Consultants, the corporatised entity of the former Public Works Department of Singapore, and currently holds the positions of Director, CPG Consultants Pte Ltd; Supervising Director, CPG Signature Pte Ltd; and Managing Director, CPG Consultants India Pvt Ltd.

He began his career as a resident engineer with the Public Works Department Singapore, where he worked on the Malaysia-Singapore Second Link Bridge at Tuas. At the Public Works Department, he won the Individual and Team Award for Work Excellence in 1999.

Today, Er. Kho has about 30 years of professional experience in civil, structural, geotechnical and transportation engineering and has worked on a wide range of projects, including commercial, residential, education, healthcare, and infrastructure in Singapore, Malaysia, Vietnam, UAE, India and the Philippines.

Some landmark projects Er. Kho has worked on locally include the Gardens by the Bay, Ng Teng Fong General Hospital, Jurong Community Hospital, National Gallery of Singapore, National Centre for Infectious Diseases, and the State Courts. He also worked on the challenging Marmaray Bosphorus Crossing, a 13.6km long undersea railway crossing the Bosphorus Straits in Istanbul, Turkey.

Er. Kho became President of the Association of Consulting Engineers Singapore (ACES) in 2022. On his appointment, he said: "In leading the ACES council, the focus will be to value-add to the Built Environment sector in support of industry transformation, sourcing the best talents and strengthening ties with industry partners."

Currently, he is also the President of the Federation of ASEAN Consulting Engineers. In addition, he is Chairman of the Construction Industry Joint Committee, which serves as a platform to unite all key players in the construction industry / built environment sector, as well as The Institution of Engineers, Singapore (IES)-ACES C&S RE/RTO Joint Accreditation Committee.

Always passionate about educating budding engineers, Er. Kho also makes time to serve as Deputy Chair of the NUS Civil and Environmental Engineering Industry Advisory Board (2023-2025).

His professional associations include being a Professional Engineer with the Professional Engineers Board Singapore; Specialist Professional Engineer in Geotechnical Engineering, Professional Engineers Board; Specialist Accredited Checker, Building and Construction Authority; Qualified Erosion Control Professional, IES and ACES; ABC Waters Professional, IES; Design for Safety Professional, ACES; Member of the IES.
