

Governance for AI Explainability

Learn governance and techniques for AI deployment in a safe and responsible manner.

You will learn the basic of Machine Learning at conceptual level; the difference between explainable machine learning models and black-box machine learning models, and techniques for AI explainability.

This course will provide you with the AI governance frameworks and learn how to establish an AI governance framework for ethical AI deployment.

SSG Funding support is available for this course:

- Fees before SSG funding and GST is S\$1,800.00
- Singapore Citizens (SCs) and Permanent Residents, (Up to 70% funding)
- SCs aged ≥ 40 years old will enjoy the SkillsFuture Mid-career Enhanced Subsidy, (Up to 90% funding)

Kwong Yuk Wah

Dr Kwong Yuk Wah led the Singapore Computer Society (SCS) AI Ethics and Governance initiative from 2020 to 2022 and accomplished a few achievements which include the launch of the world's first AI Ethics Body of Knowledge and SCS-NTU AI Ethics Certification for professionals.
