

# Enterprise Cyber Risk Management

This course will introduce learners to the concept of holistic cyber risk management. In business speak, this course on cyber risk management begins with an introduction (inclusive of third party and systemic risks) and how businesses are impacted, translating cyber risk metrics into business terms.

This course delves into navigating modern business expansion, emphasizing global partnerships and the associated risks like data breaches and financial losses.

Tailored for IT professionals in sectors like banking, digital businesses and public sector agencies, it enhances expertise in cyber and data governance to effectively manage risks and protect organizational integrity.

## SSG Funding support is available for this course:

- Fees before SSG funding and GST is S\$2,000.00
- Singapore Citizens (SCs) and Permanent Residents, (Up to 70% funding)
- SCs aged  $\geq 40$  years old will enjoy the SkillsFuture Mid-career Enhanced Subsidy, (Up to 90% funding)
