

Box Furnace Type 2 (Small Capacity)

Manufacturer: **Zhengzhou Brother Furnace Co.,LTD**

Model: **XD-1200M**

Description:

The box furnace with small capacity has been designed to store and anneal small samples under high temperature. The maximum capacity can be ~5 L and the highest temperature can attain ~1000 °C.

Specification

- Internal capacity: 1-5 L
- Input AC voltage: 220~240 V / 50 Hz
- Rated power: ~1-3 KW
- Working/Max temperature: 1000/1100 °C
- Constant temperature accuracy: ± 1 °C
- Thermometric component: Type N thermocouple
- Temperature control mode: With PID, Auto-tuning function and more than 30 heating program, 15 steps
