

Freeze Dryer

Manufacturer: Labogene

Model: ScanVac CS110-4

Description

Freeze-drier for sample preparations, preservation and storage of biological materials, also suitable for heat-sensitive substances

Specifications and advantages

- Condenser temperature: -110°C
- Condenser volume: 4 L
- Condenser capacity: 3 kg
- Condenser material: 316S coated with 6 layers of Teflon
- Dimensions: 500 x 400 x 500 mm (H x W x D)
- Lowest condenser temperature in the market guarantees superb freeze drying speed and quality even when handling organic solvents while protecting the pump and laboratory environment

Operation procedures and instruction manual can be obtained from person in charge.

This instrument can only be used by trained personnel.
