

## 3D Powder Printer and Cleaner

**Manufacturer:** [MicroJet Technology Co., Ltd](#)

**Model:** T10 Full Colour 3D Printer

[www.microjet.com.tw](http://www.microjet.com.tw)

### Descriptions:

ComeTrue is an innovative 3D printer integrated with Microjet's own designed inkjet printhead and rapid prototyping technology.

Utilizing the ComeTrue Print software to slice the 3D files. ComeTrue builds up parts layer-by-layer by depositing a liquid binder onto thin layers of plaster-based powder.

### Features:

Build size	200x160x150 (mm)
Colouration	CYMK
Material Base	Powder (Calcium Sulphate)
Binder	Glue and oven heating <50 °C
File Support	VRML (can apply STL, OBJ, 3DS, PLY, etc. via PixiRite Preparation Software)
Port	USB
Print speed	10mm/hour
Resolution	1200 x 556 dpi
Nozzle on each print head	2400

### Applications:

1. Proto-type printing
2. Small quantity printing
