

## Box Furnace Type 1 (Large Capacity)

Manufacturer: Zhengzhou Brother Furnace Co.,LTD

Model: XD-1700M

Description:

The box furnace with large capacity has been designed to store and heat large sample under high temperature. The maximum capacity can be ~18 L and the highest temperature can attain ~1600 °C.

Specification

- Internal capacity: 10-18 L
- Input AC voltage: 220~240 V / 50 Hz
- Rated power: ~4-10 KW
- Working/Max temperature: 1600/1650 °C
- Constant temperature accuracy:  $\pm 1$  °C
- Thermometric component: Type B platinum rhodium Thermocouple
- Temperature control mode: With PID, Auto-tuning function and more than 30 heating program, 15 steps
