### **Technopreneur.**

Kelvin KOK is a seasoned technopreneur and currently is the CEO and Co-founder of a Singapore-based deep tech company specializing in Generative AI and Computer Vision Solutions. The company is dipping into the space of Generative AI and developing text2video and image2video solutions to revolutionize the video advertising industry. The company is also exploring AI possibilities to make lives simpler, smarter, and safer in video analytics with focus on the Public Safety & Security and Smart Cities. Previously, he founded & exited a consultancy dedicated to assisting clients with concept development and experimentation.

### **Adjunct Lecturer.**

Kelvin believes that experts are a continuum, and he is passionate about knowledge sharing. Currently, he serves as an adjunct lecturer in NTU Entrepreneurship Academy, covering Master and CET/ FlexiMaster MSc (Technopreneurship & Innovation) module for both English and Chinese classes.

### **Military / Diplomat.**

Prior to his entrepreneurial journey, Kelvin had a two decades of successful military career, held both command & staff positions including Commanding Officer of a 24/7 unit and diplomatic appointment overseas in Singapore Embassy.

### **Volunteer.**

Kelvin has been volunteering in different capacity in the Singapore Armed Forces and as grassroots leader in the community. He was conferred with three State Medals (National Day Award) for his service.

### **Talk about.**

Entrepreneurship, Artificial Intelligence, Building the next big thing, community building.
