Access category: Public

Emerging nanoscience Research Institute (EnRI) in recognizing its corporate responsibility commits to take all reasonably practicable means to provide a safe and healthy environment to all staff, partners, students, collaborators and visitors. EnRI is committed to:

- Comply with applicable safety, health & environment legislations in Singapore;
- Adopt the internationally recognized S&H management framework (ISO 45001) and proactively manage the risks to prevent incident;
- Inculcate the sense of shared stewardship for S&H matters among staff and students through consultation and participation to prevent injury, ill-health and care for the well-being for the community;
- Set S&H objectives and monitor relevant safety, occupational health or well-being performances periodically for improvements;
- Provide appropriate S&H training, information and supervision for staff and students to work safely in eliminating or reducing risks at source, protect the well-being of persons and be prepared for emergency situations;
- Report and investigate promptly all incidents to determine the root cause(s) and take appropriate actions to prevent recurrence;
- Review the infrastructural facilities and research projects to address S&H risks as well as the prevention to environmental pollution;
- Provide appropriate resources to achieve the intent of this policy; and
- Strive for continual improvements to EnRI S&H management system (SHMS).
