

<Characterization of the way-below relation on function spaces over domains>

<Andradi Hadrian>

Date: 20 Mar 2012 (Tues)

Time: 3.30pm – 4.30pm

Venue: MME Journal Room NIE 7-3-16

Abstract

In this seminar talk, the speaker who is a non-graduating student of NIE (from Univeritas Gadjah Mada) reports on the concrete characterization of the way-below relation on function spaces over domains. This talk aims to give a concise and coherent explanation of a known result by Erker, Escardo and Klaus. Future directions and new considerations will also be briefly mentioned.

All are Welcome!
