# SPORT SCIENCE & MANAGEMENT SS2330 HUMAN RESOURCE MANAGEMENT IN SPORT

Academic Year	2025-26	Semester	2				
Course Coordinator							
Course Code	SS2330	SS2330					
Course Title	Human Resource Management in Sport						
Pre-requisites	-		***************************************				
No of AUs	3						
Contact Hours	39						

#### **Course Aims**

Managing human resources well is vital to any organisation. You will examine the different functions of human resource management, such as recruiting, training and assessing personnel of the organisation. In particular, given the importance of volunteers in sports organisations, the course will also examine human resource practices specific to this segment.

## **Intended Learning Outcomes (ILO)**

By the end of this course, you should be able to:

- 1. understand and apply the concept of human resources in sport and recreation.
- 2. analyse a profession and its attributes along with leadership and the different leadership theories.
- 3. explain the various attributes of jobs and their motivational properties and the process through which people are matched with jobs via recruiting, hiring, and training.
- 4. interrogate the process of performance appraisal and the reward system in sport organisations and distinguish three different types of organisational justice.
- 5. define the concept of job satisfaction, analyse and apply various facets of satisfaction, and how organisational commitment might contribute to job satisfaction.

#### **Course Content**

The following topics will be covered:

- 1. Human Resources in Sport and Recreation
- 2. Job Design and Staffing
- 3. Performance Appraisal and Reward System
- 4. Job Satisfaction and Commitment
- 5. Leadership

# **NTU Competencies & Graduate Attributes**

NTU Competencies		
Character		
Competence	V	
Cognitive agility	V	

NTU Graduate Attributes	
Graduate Attributes	Level (i.e., basic, intermediate, advanced)
1. Building inclusivity	Advanced
2. Collaboration	Intermediate
3. Developing people	Intermediate
4. People orientation	Advanced

# Assessment (includes both continuous and summative assessment)

Component	ILO Tested	Weighting	Team/ Individual	Assessment Rubrics
Group Assignment	1-5	20%	Team	Appendix 1
2. Individual Assignment	1-5	20%	Individual	Appendix 2
3. Class Participation	1-5	10%	Individual	Appendix 3
4. Final Examination	1-5	50%	Individual	
Total	100%			

## **Formative Feedback**

Feedback for learning will be verbally provided during lectures and group discussions.

During the completion of the Group Assignment, you will be provided with verbal feedback as a group pertaining to your assessed performance. Generic verbal and written feedback will be provided to the class for the test. Individual feedback will be provided for the assignment.

# **Learning and Teaching Approach**

Approach	How does this approach support you in achieving the learning outcomes?				
Lectures	<ul> <li>Lectures will provide information for key learning concepts and theories and support understanding of key concepts.</li> <li>Class discussions will engage you in a deeper understanding of the theories and applying them in real-life contexts.</li> <li>Video clips will provide an alternative mode of instruction.</li> <li>Case studies will help demonstrate the application of the theories in real-life contexts.</li> </ul>				
Online Learning	Time will be given for learning from online materials as a part of fli teaching approach. These materials will support key concepts				

covered in lectures and laboratories.

# **Course Policies and Student Responsibilities**

#### (1) General

You are expected to complete all assigned pre-class readings and activities, attend all classes – lecture and laboratory – punctually, submit all scheduled assignments and take tests by due dates. You are not allowed to swap laboratory groups without express permission from the course coordinator. You are expected to take responsibility to follow up with course notes, assignments and course-related announcements for sessions they have missed. You are expected to participate in all discussions and class activities unless there is a valid medical reason not to do so.

#### (2) Absenteeism

Absence from class without a valid reason will affect your overall course grade. Valid reasons include falling sick, supported by a medical certificate and participation in NTU's approved activities supported by an excuse letter from the relevant bodies.

If you miss a lecture, you must inform the course instructor via email prior to the start of the class.

# (3) Absence Due to Medical or Other Reasons

If you are sick and not able to complete a test or submit an assignment, you have to submit the original Medical Certificate (or another relevant document) to the Sport Science & Management (or Home School) administration to obtain official leave. Without this, the missed assessment component will not be counted towards the final grade. There are no make-ups allowed.

## **Academic Integrity**

Good academic work depends on honesty and ethical behaviour. The quality of your work as a student relies on adhering to the principles of academic integrity and to the NTU Honour Code, a set of values shared by the whole university community. Truth, Trust and Justice are at the core of NTU's shared values.

As a student, it is important that you recognise your responsibilities in understanding and applying the principles of academic integrity in all the work you do at NTU. Not knowing what is involved in maintaining academic integrity does not excuse academic dishonesty. You need to actively equip yourself with strategies to avoid all forms of academic dishonesty, including plagiarism, academic fraud, collusion, and cheating. If you are uncertain of the definitions of any of these terms, you should go to the <a href="NTU Student Academic Integrity Policy and Procedures link">NTU Student Academic Integrity Policy and Procedures link</a> in the Student Portal for more information. Consult your instructor(s) if you need any clarification about the requirements of academic integrity in the course.

Special note: Generative AI tools will be allowed to the extent stipulated for each assignment in the assignment instructions, and any such use must be duly referenced or disclosed.

Appendix 1: Assessment Criteria for Group Assignment (20% Final Grade – marked out of 100)

	A+, A, A-	B+, B	B-, C+, C	D+, D	F
Understandi ng of the theories (50)	Demonstrate s a very good understandin g of the theories.	Demonstrate s a good understandin g of the theories.	Demonstrate s a basic understandin g of the theories.	Demonstrate s a weak understandin g of the theories.	Does not demonstrate any understandin g of the theories.
Application of the theories (40)	Able to provide excellent examples of the application of the theories.	Able to provide good examples of the application of the theories.	Able to provide some examples of the application of the theories.	Able to provide a limited number of examples of the application of the theories.	Unable to provide examples on the application of the theories.
Organisatio n and language (10)	The report is well- organised, and the arguments flow very well. There are very few mistakes in terms of grammar or formatting.	The report is well- organised, and the arguments flow well. There are a few mistakes in terms of grammar or formatting.	The report is organised. There are some mistakes in terms of grammar or formatting.	The report is relatively organised. There are several mistakes in terms of grammar or formatting but remain understanda ble.	The report is poorly organised. There are many mistakes in terms of grammar or formatting, and it is difficult to comprehend the report.

Team members are assessed on their contribution to the team's final submission and one another's learning. Hence, individual scores may vary according to feedback or observations.

Appendix 2: Assessment Criteria for Individual Assignment (20% Final Grade – marked out of 100)
