

From mid-tier to top JC

Now the top JC that does not offer the integrated programme, Nanyang credits its success to its focus on creating a conducive learning environment

Lim Ng, Nanyang Junior College's principal

When in 2008, the school was a mid-tier JC, it was not known for its academic excellence and could have had a good number of students who would not have been able to secure places in the top tier of secondary schools. It was a time when the school was struggling to attract students from the island and the region. The school had to work hard to improve its reputation and create a conducive learning environment for its students.

PUTTING STUDENTS FIRST

In 2008, when the school was a mid-tier JC, it was not known for its academic excellence and could have had a good number of students who would not have been able to secure places in the top tier of secondary schools. It was a time when the school was struggling to attract students from the island and the region.

When you are a principal, you have a lot of responsibilities. You have to ensure that the school is providing a good education for all its students. You also have to create a conducive learning environment for your students. This involves implementing various initiatives to support their holistic development.
